

AIR CUSHION COMPACT

The Cutting Edge packaging conception

Air Cushion case #7125437-37

LANCÔME has recently introduced an innovative product to the cosmetic market so called "MIRACLE CUSHION".

The idea is to soak the cushion in the creamy formula with an air-sealed base to be applied by the puff through pushing. With its special design, it is rapidly grabbing people's attention.

To catch up the trend in the industry, Ching Fon has developed our own air cushion case but in a simplified design which keeps the same "air cushion" feature as below:

- Air cushion designing
- Airtight base (can be foil sealed)
- ※ Yet much more economic!!

Finished Product Also Available

Along with the packaging, Ching Fon also develops our own formula for the air cushion compact. It comes with the following functions:

- Whitening
- UV rays blocking
- Water resistance
- And more (can be adjusted).
- Moisturizing
- Imperfection covering
- Contains vitamins

Luxury Air Cushion #3132189

To serve the different marketing strategy and segments, we built also the luxury version of the air cushion compact. The extra features are:

- Mirrored / Puff storage available.
- Replaceable bottom piece (formula holder)

For more information of the packaging, formula or other aspects,
